

In August and September 2013 EasyWeddings.com.au, Australia's biggest online wedding destination, conducted its annual wedding survey. More than 2100 Aussie couples shared their wedding planning experiences, telling us everything from how long they were engaged to their thoughts about same-sex marriage and, of course, the overall costs of their big days.

The results below paint the most accurate, up-to-date and authoritative picture of Australia's wedding industry and modern couples.
